

- WYPALL* Wipers can help reduce cross-contamination and bacteria growth because they offer a cost-effective single-use solution.
- WYPALL* Wipers are not only bulky and strong enough to protect worker's hands. The hygienic product form and dispensing options can help to reduce the risk of worker incidents.

Performance. Value. Peace of mind.

All WYPALL* X wiper products are manufactured in a HACCP certified facility, meaning they can be used safely in all food applications.
