

LKH-NN-81002

LED 5x1W Garden Spike Light

Light Source: LED 5 X 1W
Beam Angel: 34°
Rotary angle: ±90°
Material: Aluminum
Operating Current: 350mA
Input Voltage: 100-240V AC
Warm white: 3000K~4000K
Pure white: 5500K~7500K
Cold white: 8000K~10000K
Operating temperature: -30°C - +40°C

This LED garden spike light easily replaces your existing lights that shine at landscape. With no infra-red radiation, this does not emit heat at your plants and will not be harmful to them. Using only 5W, this gives you more than 90% savings! And on top of that, it is also **9-10 times** more lasting than your conventional PAR38 lamps!
