 **MOTOROLA SOLUTIONS**

EVOLVE

HANDHELD LTE DEVICE BUILT FOR BUSINESS AND MISSION CRITICAL ENVIRONMENTS

Built for **business and mission critical environments**, the Evolve LTE handheld device combines intuitive user experience and open platform architecture with the ruggedness and reliability expected of a critical communications device.

RESILIENT AND RUGGED

Built to withstand tough working conditions and to last multiple shifts, you can get the job done safely anywhere you do business.

- Dust-proof and submersible IP68 (2m, 2h)
- Liquid resistant glove operable touch screen
- Long life and easily replaceable battery
- Secure battery attachment

SEAMLESS CONNECTIVITY

Equipped with future-proofed data and voice connectivity, and access to an expanding technology and software ecosystem.

- 3G, 4G, Dual band Wi-Fi
- Dual SIM capability
- Ideal companion for WAVE PTX™

MISSION-CRITICAL

Wherever the mission takes you or whatever working conditions you face, you need a device that's as tough and durable as they come.

- Dedicated MC controls (PTT, emergency, channel)
- Loud, clear audio
- Superior background noise cancellation
- MIL-STD-810 (11 categories exceeded)

OPEN ARCHITECTURE

Built with the familiar user experience of the Android operating system, Evolve is easily adaptable to your existing systems and allows for a seamless transition for anyone who has used an Android smartphone or tablet.

- Android platform
- Open app ecosystem
- Centralised device management

INTUITIVE USER EXPERIENCE

Designed to give your team immediate access to the data and intelligence flowing in and out of your organisation, and help them to make informed decisions on the fly.

- Simple interface
- 5" touch screen
- Front and rear facing cameras
