

Aesthetic portable disinfection device without installation

UV-C disinfection floor standing air unit

The Philips UV-C disinfection air unit is a powerful and effective way to disinfect circulating air. It draws air into the unit where UV-C radiation inactivates up to 90% of micro-organisms in 80m³ within just 1 hour (circular coverage 28m²)(1). With no need for mounting, the free standing unit can be wheeled into place in a wide range of professional applications, from offices and retail to hospitality. The aesthetic design delivers well-controlled UV-C radiation (RG0) and can also be used when people are present.

Benefits

- Achieves 90% air disinfection in 80m³ in 1 hour(1).
- Circular coverage of 28m².
- No fixed installation or mounting required and replaceable in the room.
- Reliable and strong UV-C irradiance inner chamber.
- User-friendly interface with clear display and range of flexible options.
- User-friendly interface with clear display and simple buttons, full range of flexible options.
- Aesthetic design.
- Mechanical safety and germicidal effectiveness validated by independent scientific reports:• Germicidal effectiveness validated by test report(1).• Easy maintenance with display notification for spare parts.
- (1) Henan Zhongke Lianchuang Test Service Co., Ltd Test conclusion: Philips UV-C Disinfection air unit (UVCA200) was operated for 60min and 120min respectively in the 80m³ test chamber, and the killing rate of natural bacteria in the air was ≥90% in each test which met the requirement of WS/T648-2019 《General hygienic requirement for air disinfecting machine》

UV-C disinfection floor standing air unit

Features

- Housing material: anti UV plastic.
- Philips UV-C lamp: 4*18W PL-L version.
- Philips Ballast: HFP 236.
