

ARC FLASH PROTECTION

ARC FLASH PPE

Arc flash kits, gloves & rescue accessories

A practical selection of arc-rated personal protective equipment and insulated rescue accessories for electrical maintenance and industrial work environments.

Product range

- PrismShield™ Plus lift-front arc flash kits in 20, 40 and 100 Cal/cm² ratings
- Pro-Wear® arc flash gloves in 20, 40 and 100 Cal/cm² ratings
- Insulated rescue hook for safely releasing a victim from live electrical contact.
- SALCOR 1192-ES tool / rod holder for hot sticks, tools or rods

Standard Lift-Front Arc Flash Kit

ARC FLASH KIT – 20 CAL/CM²

PrismShield™ Plus 20 Cal/cm² lift front hood, Pro-Wear® Plus 20 Cal/cm² bib overalls and coat, face shield bag, and large bag to carry all kit contents

- **Size L** : SK20RGL-LF-PP
- **Size XL** : SK20RGXL-LF-PP

Applications

For electrical maintenance where a 20cal/cm² garment system is specified.

ARC FLASH KIT – 40 CAL/CM²

PrismShield™ Plus 40 Cal/cm² lift front hood, Pro-Wear® Plus 40 Cal/cm² bib overalls and coat, face shield bag, and large bag to carry all kit contents.

- **Size L** : SK40RGL-LF-PP
- **Size XL** : SK40RGXL-LF-PP

Applications

For switchboards, industrial panels and utility maintenance where 40 cal/cm² protection is specified.

Higher-Tier Lift-Front Arc Flash Kit

ARC FLASH KIT – 100 CAL/CM²

PrismShield™ Plus 100 Cal/cm² lift front hood (premium), ProWear® Plus 100 Cal/cm² bib overalls and coat (premium), face shield bag, and large bag to carry all kit contents.

- **Size L** : SK100PRGL-LF-PP
- **Size XL** : SK100PRGXL-LF-PP

Applications

For substations, utilities and heavy industry where a premium 100 cal/cm² garment system is specified.

Premium Lift-Front Arc Flash Kit

Standard Arc Flash Glove

ARC FLASH GLOVE – AFG20

20 Cal/cm², navy blue

Sewn with Nomex® thread and made with arc-rated material. The glove is 14 inches long, uses a clute-cut construction.

- **Standard Size :** AFG20 – 20 CAL/CM²

Applications

For electrical maintenance where a 20cal/cm² garment system is specified.

ARC FLASH GLOVE – AFG40

40 Cal/cm², gray

Sewn with Nomex® thread and made with arc-rated material. The glove is 14 inches long, uses a clute-cut construction.

- **Standard Size :** AFG40 – 40 CAL/CM²

Applications

For electrical maintenance where a 20cal/cm² garment system is specified.

Higher-Tier Arc Flash Glove

ARC FLASH GLOVE – AFG100

100 Cal/cm², khaki

Sewn with Nomex® thread and made with arc-rated material. The glove is 14 inches long, uses a clute-cut construction.

- **Standard Size :** AFG100 – 100 CAL/CM²

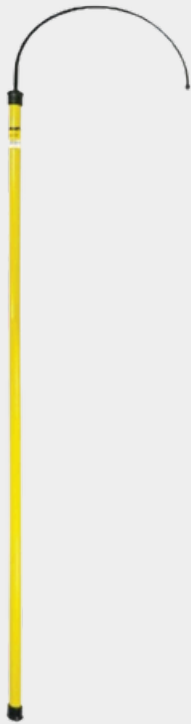

Applications

High-energy electrical work and switching tasks where 100 cal/cm² arc-rated hand protection is specified.

Premium Arc Flash Glove

Insulated Rescue Hook

INSULATED RESCUE HOOK

Shock protection rescue equipment

- **Length 6ft** – IN24401
- **Length 8ft** – IN24403

Designed to help safely release a victim from live electrical contacts and confined locations such as vaults, electrical cabinets and switchgear.

- Matt finish for better grip and handling
- Foam-filled FRP stick for electrical insulation
- Dip-coated hook with an 18-inch opening
- Cross-dimensional yarn construction for increased strength
- PVC FRP construction for mechanical and electrical properties
- Tested to IEC 60060-1/2010 (CPRI) for up to 110 kV

Application

Industries with high voltage electricity.

Salcor Tool / Rod Holder

SALCOR TOOL / ROD HOLDER

Compact point-of-use holder for compatible hot sticks, tools or rods.

- **1.25inn** – 1192-ES

Applications

Point-of-use wall storage near switchgear, substations and electrical maintenance areas for compatible hot sticks, tools or rods.
